

MARINE TRAFFIC FOR PAST TWO DAYS

TORPEDO FLEET ARRIVES IN PORT—CALIFORNIA LINERS ACCOUNTED FOR—LUMBER FLEET ALL BUSY—GATZERT SPENCER CONTEST PROMISED—ELMORE ARRIVES—NAHCOTTA'S NEW RUN.

The torpedo fleet is in port. The Preble, Fox and Farragut were in the city channels by 4 o'clock, alight after their heavy heading up the coast and their refueling in Coos and Humboldt. The Davis came in just before sundown. It was reported that one of the vessels was outside in trouble, but this could not be verified. They are all in port however, and will leave up the river this morning. They made an interesting display and had plenty of reviewers from Smith's to Tongue Point.

The steamer Nahcotta will make her initial trip from the O. R. & N. pier to Megler, the station of the Ilwaco Railroad Company, opposite this city, this morning at 7:30 o'clock; and this will be the rule until further orders, Sundays included. The railway line from Megler to Ilwaco is now in good shape and ready for the summer business to the beaches, the first train on schedule passing over the line yesterday morning.

It is authentically rumored that the fine fast steamer Bailey Gatzert will enter the Astoria field on Monday or Tuesday next, when it shall be determined whether she is to run opposite the Spencer or against her. With

TEA

Tea is not infallible; moneyback makes amends. We are not, in the least, uneasy about the money.

Your grocer returns your money if you don't like the Shilling's Best; we pay him.

these two fine boats added to the already good fleet on the river between here and Portland, there will be something doing, or nothing.

The steamer R. D. Inman came over the bar on Sunday afternoon late on a quest for lumber, with Captain Hardwick on the bridge. The Astorian was mistaken on Saturday when it assigned this capable officer to the Thos. L. Wand.

The steamship Roanoke left San Francisco on Saturday night last at 9:30 o'clock, and will not be in port until this morning. Everything is making heavy weather of it up the coast these days.

The British steamship Yeddo is down from Portland and at the T. P. docks, where they are rushing her deck-load on her to get her away for San Francisco in time to save her mail charter out of there on the 5th.

The swift little packet Chas. R. Spencer resumed her Astoria tri-weekly run yesterday, bringing down plenty of people, and taking back a large group of Astorians bound for the Rose Festival.

The steamer Sue H. Elmore arrived in at noon yesterday from Tillamook with a good list of passengers, and went to Portland on her last trip with that city as headquarters.

The steamship Rose City docked at the O. R. & N. piers last evening at 6:15. She had a big list of people and a fair manifest of freight. She went on to the metropolis at 8 o'clock.

The steamer Undine is sticking close to her schedule and carrying well on both decks as usual. She took up a number of excursionists last evening to the Rose Festival.

The steamer Thomas L. Wand went to sea on Sunday, with lumber from up-river mills.

The steamer F. S. Loop was a Sunday arrival, reaching here during the afternoon. She comes for lumber as usual.

The steamship Breakwater was among the Sunday arrivals, coming in from Coos Bay Points, with good business in cabin and hold.

The steamer Wellesley arrived in from the Bay City on Sunday afternoon and went on to Stella where she load lumber outward.

The fine steamer Northland was one of the Sunday arrivals from San Francisco, going on to Portland without much delay here.

The steamer Alliance went out early on Sunday bound for Coos, with a fair crowd of people and plenty of cargo.

The steamer Yosemite arrived in from San Francisco last evening and came after lumber as usual. As did also the steamer Yellowstone.

The steamer Thomas L. Wand went to sea on Sunday, with lumber as usual.

DOING THEIR DUTY.

Scores of Astoria Readers Are Learning the Duty of the Kidneys.

To filter the blood is the kidneys' duty. When they fail to do this the kidneys are sick.

Backache and many kidney ills follow;

Urinary trouble, diabetes.

Doan's Kidney Pills cure them all. A. P. Maney, Hawthorne Terrace, Portland, Oregon, says: "My work subjects me to much jolting and as a result my kidneys became disordered, causing sharp knife-like pains in my back. This trouble bothered me a great deal while working and being desirous to rid myself of it, I decided to give Doan's Kidney Pills a trial procuring a supply. I found quick relief from their use and finally a complete cure. Although this was over three years ago there has never been a return of the trouble since, clearly showing that when Doan's Kidney Pills cure, they cure permanently."

Plenty more proof like this from Astoria people. Call at Charles Rogers' drug store and ask what customer's report.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

FORGETTING SAILORS.

So Says Commodore Mackey in His Address.

NEW YORK, June 1.—Commodore Wm. E. Mackey, postmaster at Rutherford, N. J., a naval veteran of the Spanish War and a Republican candidate for Congress, created some surprise yesterday when he made the following statement from the platform at the unveiling of a cannon in Hackensack to memory of soldiers and sailors who lost their lives in the wars of the United States:

"It is sad to relate that we are forgetting the American sailors. We are erecting magnificent buildings, in almost every city in every state to be used as public libraries, hospitals and asylums of all kinds, but where do we find any of those achievements for the sailor? Because he is a sea-faring man away from friends he is forgotten, except when it is thought there is a possibility of a foreign country making invasion somewhere on our coast; then we think of our sailors."

"Do you know how many places there are in the United States where a sailor can expect a cordial welcome, a comfortable room a wholesome meal at a reasonable price?"

"There are just six, and there should be six thousand."

"It is seldom the sailor is remembered by our people when attending Divine Worship and I think it is wrong. I am glad to know that this monument is erected to memory of our sailor-heroes as well as to the soldiers."

NEW VICE CONSUL.

SAN FRANCISCO, June 1.—The Japanese vice consulship in San Francisco which was made vacant a few days ago by the appointment of K. Matsubara as charge d'affaires at Osaka, will not be abolished as was generally believed. From private sources it was learned yesterday that the government at Tokio had appointed S. Takahashi for the position and that the new vice consul would soon set sail for San Francisco to take up his new duties.

JOLLY PUBLICISTS

Pacific Coast Admen Get Together in Portland

ASTORIA IS REPRESENTED

Banquet is a Unique Affair—President Roosevelt Personified by Accomplished Actor—Other Pleasing Features—Very Interesting Session.

PORTLAND, June 1.—The opening day of the Pacific Coast Admen's Association proved an event of considerable note, delegates being present from all the Pacific Coast States. During the afternoon session J. H. Whyte, manager of the Astoria Chamber of Commerce, addressed the convention on the subject of "Putting Astoria on the Map." He spoke as follows:

The Astoria Chamber of Commerce is now busy taking care of results from its first year of advertising and has begun its second year with renewed energy and with a greater force and power.

The first advertisement of the classified advertising system of this organization appeared July 15th, of last year and immediately following as many as 400 letters a day were received and from that time on until December 15th, a period of six months, about 12,000 letters have been received and answered, and in addition to the personal or circular letter answers about 60,000 pieces of literature were mailed to inquirers.

As many as 67 classified advertisements were run at one time throughout the United States and Europe and the combined circulation continuously for these adlets was not less than 90,000,000.

We are now in the position of a man who has worked up a valuable business and who can devote most of his time and attention to caring for the same. We have established our pressed brick and terra cotta plant which speaks for itself and probably will speak in very loud tones throughout the entire west because we have discovered a shale in Astoria that will make a dazzling porcelain-white brick worth \$100 a thousand, not to speak of other kinds of less value.

To further our efforts towards settling our splendid dairy and farm lands, we have begun a cooperative movement, if we may express it in these words, with the Forest Service of the Agricultural Department of Washington, D. C., Dr. L. F. Hawley is now in Astoria and has his laboratory in place and will for the first time make a thorough chemical analysis of the volatile oils and other products of fir, spruce and hemlock trees, especially paying attention to the possibilities of extracting products from the stumps off of the cut-over lands.

Should Dr. Hawley be successful in ascertaining that there are valuable bi-products which may be extracted from these woods we will have performed a double mission, enabled ourselves to clear off the stump land at a very much less cost, and at the same time, have established a manufacturing enterprise of value.

Should we find that there are valuable bi-products in the heretofore despised stumps of Clatsop County we will offer them free to every manufacturer of such bi-products in the United States together with a bonus of \$25.00 an acre clearing.

If a man can successfully manufacture bi-products from stumps in Michigan and in the southern states and pay from \$3 to \$5.50 a cord for them, it certainly would be of interest to him to know that he could get free stumps in the Northwest and in addition a bonus of \$25 an acre.

Within a short time we shall have completed arrangements for drilling for oil and gas, expecting to be able to find natural gas in commercial quantities because natural gas is now being burned to some extent in the vicinity of Astoria.

We will soon have in shape an electric railroad, enterprise so that construction can begin on a line from Astoria through Seaside to Tillamook.

A scientific cheese and butter maker from Germany, early this fall will stimulate the dairy interests of Clatsop by the establishment of a sterilizing plant, such that milk can be kept if necessary for the purpose of manufacturing cheese, as long as fourteen days.

We have completed a connecting road with the Clatsop Beach so that we now have an 18 mile seabeach automobile speedway, the finest in the world.

... QUALITY GROCERIES ...

ACME GROCERY CO.

HIGH GRADE GROCERIES

521 COMMERCIAL STREET

PHONE 681

These are some of the things that are going on in Astoria and Clatsop County, which shows that we are more or less active in and about the second city of Oregon.

There are other undertakings under way there about which we are not talking at this time. We have appointments with people from various parts of the United States for almost every day in June to meet us in Astoria and discuss various business propositions.

In continuing our advertising system which is a classified one we are trying to bear in mind that good booklets are wasted if poorly distributed and that good advertising unwisely placed, is also wasted.

During the Rose Festival here this week Astoria has a float which appears in the parade and sets forth more or less allegorically, traits of importance, emphasizing the fact that Astoria is the gateway of the Columbia River.

We cordially invite all the members of the Association to visit Astoria during the present convention or soon thereafter and see for themselves what might be offered in the various lines of commercial and industrial possibilities by the second city in Oregon.

In closing let me say that the Astoria chamber of Commerce is now engaged in making an active campaign to secure the passage at the next session of the legislature of a bill that will allow counties and towns to vote a tax to carry on publicity and promotion work. In Oregon large tracts of land are held by railroads, timber and lumber companies, not to mention foreign corporations of various kinds. These are all opposed to the making of subscriptions for publicity work and there is no way to reach them excepting through taxation. We propose to do this and have prepared a tentative bill a copy of which may be had by those who are especially interested and who will apply to us for the same."

The banquet in the evening at the new Commercial Club building was attended by 300 guests. In detail of originality nothing like it has ever been seen on the Pacific Coast and it is doubtful if the Gridiron Club at Washington ever excelled this banquet and entertainment. President Roosevelt was among those impersonated by a prominent local actor. The great president was represented as coming in an airship. Innumerable vaudeville and other stunts were pulled off during the banquet and a pretty girl was brought in hidden in a basket of flowers and was released to sing for the audience.

Admiral Swinburne of the Charleston who, a year ago, was present in Astoria at a banquet given there to Vice-President Fairbanks, was the honored guest of the occasion. Tom Richardson was the toastmaster.

Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stop the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes.

W. R. Ward, of Dyersburg, Tenn., writes: "This is to certify that I have used Orino Laxative Fruit Syrup for chronic constipation, and it has proven, without a doubt, to be a thorough, practical remedy for this trouble, and it is with pleasure I offer my conscientious reference."

What Shall We Have For Dessert?

Try JELL-O, the dainty, appetizing economical dessert. Can be prepared instantly—simply add boiling water and serve when cool. Flavored just right; sweetened just right; perfect in every way. A 10c. package makes enough dessert for a large family. All grocers sell it. Don't accept substitutes. JELL-O complies with all Pure Food Laws. Seven flavors:—Lemon, Orange, Raspberry, Strawberry, Chocolate, Cherry, Peach.

Will Cure Consumption

A. A. Herren, Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." You never heard of any one using Foley's Honey and Tar and not being satisfied.

If you will make inquiry it will be a revelation to you how many succumb to kidney or bladder troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure. It never disappoints.

NEW TO-DAY

GOOD WOOD.

If you want a good load of fir wood or box wood ring up KELLY the WOOD DEALER, The man who keeps the PRICES DOWN. Phone Main 2191—Barn, Cor. 12th and Duane.

The very best board to be obtained in the city is at "The Occident Hotel." Rates very reasonable.

The Palace Restaurant

The ever-increasing popularity of the Palace Restaurant is evidence of the good management, and the service, at this popular dining room. For a long time the reputation of the house has been of the best and it does not wane as time progresses. The system used, that of furnishing the finest the market affords, and all can be obtained, in season, is a plan that will always win, coupled as it is with the best of cooking and prompt service. A common saying nowadays is "Get the Palace habit."

LADY MANICURIST ENGAGED.

"The Modern," A. E. Petersen's beautiful tonorial establishment, has been further modernized by the permanent engagement of a highly trained young lady manicurist, who will also serve the house as cashier.

The Commercial.

One of the coziest and most popular resorts in the city is the Commercial. A new billiard room, a pleasant sitting room and handsome fixtures all go to make an agreeable meeting place for gentlemen, there to discuss the topics of the day, play a game of billiards and enjoy the fine refreshments served there. The best of goods are only handled, and this fact being so well known, a large business is done at the Commercial, on Commercial street, near Eleventh.

The Clean Man.

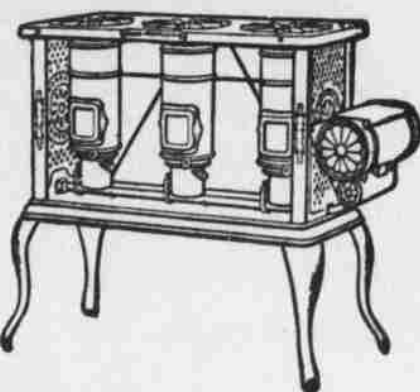

The man who delights in personal cleanliness, and enjoys his shave, shampoo, haircut, and bath, in Astoria, always goes to the Occident barber shop for these things—and gets them at their best.

New Grocery Store.

Put This Stove in Your Kitchen

It is wonderfully convenient to do kitchen work on a stove that's ready at the instant wanted, and out of the way the moment you're done. Such a stove is the New Perfection Wick Blue Flame Oil Cook-Stove. By using it you avoid the continuous overpowering heat of a coal fire and cook with comfort, even in dog-days. The

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

is so constructed that it cannot add perceptibly to the heat of a room; the flame being directed up a retaining chimney to the stove top where it is needed for cooking. You can see that a stove sending out heat in but one direction would be preferable on a hot day to a stove radiating heat in all directions. The "New Perfection" keeps a kitchen uniformly comfortable. Three sizes, fully warranted. If not with your dealer, write our nearest agency.

The Rayo Lamp is the ideal lamp for family use—safe, convenient, economical, and a great light giver. If not with your dealer, write our nearest agency.
